

# UNITIZATION OF SYLLABUS & TEACHING PLAN

Department of MATHEMATICS

Bankura Christian College

**Mathematics (Major) (DSC)**

**1<sup>st</sup> Semester (July to December, 2023), A.Y.: 2023 – 24**

**Subject: Mathematics (Major) (MJC – 1) Paper: Core T1\* (Unit 1 and Unit 3)**

**Course Title: Calculus, Geometry & Vector Analysis**      [\* The Paper contains 4 units]

**Course Instructor: Sri Samiran Patra**

**Course Objectives:** The main objective of this course is to give a deep insight of the differentiation and its applications and advanced analytical geometry.

**Course Learning Outcomes:** After completion of this course a student would have acquired a significant knowledge of Differential Calculus and its application, which they can use for their further study. This course will also enable the students to develop a clear concept of two dimensional and three dimensional analytical geometry.
